Leadership Opportunities

We partner with youth organizations that support underserved communities to introduce golf, using fun games and activities that are appropriate to the ages and abilities of the kids and teens involved.

Our chapter has worked with local veterans for over 20 years. Many of our veterans suffer from PTSD and enjoy outdoor recreation and socializing with their peers. Our veterans compete in local Veterans' Golf Association Tournaments.

First Tee Headquarters and our Chapter offer a variety of unique opportunities to our students that further their golf and life skills education. These opportunities are life-changing experiences for our teen participants. Students from our Chapter have participated in:

Participant Spotlight

Our Staff and Coaches support 14 elementary school P.E. teachers to introduce the game of golf and our core values to over 8,000 students during physical education classes. Students are introduced to the sport of golf while learning basic golf motor skills and the inherent values of the game.

The game of golf for many students with special needs is an activity that helps develop their social skills, such as: taking turns, following directions, working together, and accepting change in their normal routine. Our programs help develop communication skills (vocabulary development, application of learned vocabulary, listening to and following multiple step directions).
