School Programs

Our Staff and Coaches support 11 elementary school P.E. teachers to introduce the game of golf and our core values to over 5,000 students during physical education classes. Students are introduced to the sport of golf while learning basic golf motor skills and the inherent values of the game.

The game of golf for many students with special needs is an activity that helps develop their social skills, such as: taking turns, following directions, working together, and accepting change in their normal routine. Our programs help develop communication skills (application of learned vocabulary, listening to and following multiple step directions, and more).
